

Dual SKIN-PACK®

Mini SKIN-PACK®

SKIN-PACK® Detonator Assembly

The SKIN-PACK® is a compact, non-electrical, shock tube assembly with a attached firing device and military strength detonator. The shock tube is coiled and wrapped in a “skin,” for reduced weight and easy deployment.

KEY FEATURES:

- Instantaneous
- Compact design
- One time use
- Single and Dual (Double) shock tube
- Various shock tube lengths
- Reduced deployment noise of shock tube
- Safe and reliable
- Manufactured in USA
- In use with US and foreign militaries

APPLICATION:

- Breaching
- Military demolition
- EOD

PROPERTIES:

- **Shock Tube:**
 - Single or dual tube
 - Mini tube
 - Lengths from 16ft (5m) to 1,000ft (300m)
- **Detonator:**
 - Instant
 - Waterproof to 200ft (60m) for two hours
 - Military strength - M6/M7 equivalent (initiates C-4)
 - RDX detonator
 - NEW ranges from 1.3 gram to 4.4 grams
- **Initiation:**
 - M81
 - Spring loaded striker
- **Can be outfitted with In-Line Initiators for attachment to alternative firing devices**
- **Operational temperature range:**
 - 50°F to +125°F (-46°C to +52°C)

OPERATION:

- Pull tab from bottom of device to release the detonator
- Connect detonator to explosive charge
- Deploy shock tube from bottom while retreating to secure location
- When deployed, only the initiator is remaining in the user's hands
- Initiate shock tube with the M81 (or other) firing device
